

INTENT: 'SCHOOL READINESS'

The curriculum at Boston Nursery School has been designed to equip our children with the knowledge and skills that will prepare them for primary school.

Many of our children are socially disadvantaged. By providing key skills and knowledge in speech and communication, mathematics and reading, our children will be better placed to take advantage of the opportunities, responsibilities and experiences available to them when they begin primary school.

We are aware that a child's primary education takes place at home. We aim to engage, involve and support our children's parents and carers.
