

The best primary schools in Lincolnshire revealed in the Real Schools Guide 2020

15th January 2020

The county's top ten primary schools have been revealed in the Real Schools Guide 2020.

The guide takes a comprehensive look at each school in the county and provides a thorough insight into 45 different aspects - including not just KS2 results but factors like progress, pupil-teacher ratios and absence rates.

Lincolnshire Live's Real Schools Guide, now into its eight year, has been praised by ministers and education experts alike.

Former schools minister David Laws called it 'public service journalism in the best tradition'.

This guide aims to move beyond more limited measurements and give parents a better idea of which schools will help their child prosper, no matter what their background may be.

Kirton Primary School has been placed in the top ten for the fifth year running and has now been ranked the eighth best primary school in Lincolnshire, out of over 300 state primary schools in Lincolnshire according to the guide.
